

DATA SHEET

LABORATORY RECEIVING STATION

The Laboratory Receiving station is a fully automated receiving device developed to increase efficiency in laboratories.

BENEFITS

The Laboratory Receiving station has been developed to integrate functional requirements of modern pneumatic tube systems with the need to manage high incoming traffic in laboratories and therefore it provides:

- > Continuous incoming of samples for analysis to reduce bottlenecks during peak hours
- > Smooth horizontal arrival of sensitive goods, especially medical samples and blood products to protect sensitive content
- > Easy withdrawal of carriers at ergonomic height for long-term reduction of work-related disabilities
- > Hygienic, brushed stainless-steel case resistant to detergents and disinfectants used in healthcare facilities
- > Silent operating for maximum comfort
- > Energy-saving design of the electrical components to support environmental sustainability

FEATURES & FUNCTIONS

The Laboratory Receiving station is controlled with the Swisslog software TranspoNet, offering various features and functions adapted to customers' particular needs.

- > The Laboratory Receiving station can receive up to 8 carriers, depending on each carrier's length
- > Integrated carrier damping for cushioned receipt of transported goods
- > Equipped with 3 conveyor belts, separately motor-driven for different rotation speeds
- > Suitable for PowerLine
- > Carrier types:
 - Standard (Ø 110 and 160 mm)
 - SmartOpen / LeakProof (Ø 160 mm)

swisslog

Diameter (mm)	Incl. control unit tube switch 2 light barriers	Item no.	Dimensions H x W x L (mm)	Weight (kg)
110		0010266	990 x 326 x 1 960	approx. 45
	✓	0016068	990 x 326 x 1 960	approx. 45
160		0010268	990 x 326 x 1 960	approx. 45
	✓	0016099	990 x 326 x 1 960	approx. 45

Further diameter sizes are available upon request.

OPTIONS

> Case: Stainless sheet steel

> RFID: Carrier reading device
Tracing and tracking

Swisslog is a leading provider of integrated logistics solutions, committed to innovation and delivery of first-class solutions. Our comprehensive range of products, systems, and services offers our customers a single partner for planning, realization, operation, support, and modernization of hospital logistics processes.
